~THIS IS GOING TO BE A GREAT SCHOOL YEAR! Kudos to our staff and students, who are already engaged in high level learning! Reading and writing workshops are up and running in most classrooms and math is becoming one of the kids' favorite subjects! Today, we spent the day sharpening our literacy and mathematical instructional skills to continue providing the best learning experiences possible to all students. Hats off to our specialists, who led the professional learning this Institute Day!

~REMINDER ABOUT ARRIVAL: We have observed some students getting to school way too early almost every morning. This is a safety concern since **we do not have supervision before 8:25 AM.** Please help us keep all students safe by making sure they are not on school property without supervision. Thank you for your cooperation!

~3rd to 5th Grade CURRICULUM NIGHT: Just a reminder that our Curriculum Night for 3rd through 5th Grade is this Wednesday, 9/06/17 from 6:00 to 7:30 PM. Two identical presentations will be offered for those families who have students in more than one grade. Additional parking is available at the Tekakwitha Woods Forest Preserve across the street from our school.

~FROM THE HEALTH OFFICE - REMINDER: If your child needs to have medicine administered during the school day, a completed Medication Administration Form signed by the **DOCTOR** and parent **MUST** be submitted before the nurse can administer any medicine (**even over the counter products**). This form can be picked up at school, sent home with your child, or accessed on the D303 website under Health Services, Forms. Please call me at [\(331\)228-3304](tel:3312283304) if you have any questions.
